READING THE DATA: This page shows the state's performance over 3 IJRs and how it compares, on each indicator, against the 17 other large and mid-sized states. The state's position in each indicator is also shown through 3 colour bands. The more the blue bands, the better. 'Best value' and 'worst value' are the highest and lowest results in that indicator.

About India Justice Report 2022

The India Justice Report (IJR) 2022 is a collaborative effort undertaken in partnership with DAKSH, Commonwealth Human Rights Initiative, Common Cause, Centre for Social Justice, Vidhi Centre for Legal Policy and TISS-Prayas. First published in 2019, the third edition of the IJR adds an assessment of the capacity of State Human Rights Commissions. It continues to track improvements and persisting deficits in each state's structural and financial capacity to deliver justice based on quantitative measurements of budgets, human resources, infrastructure, workload, and diversity across police, judiciary, prisons and legal aid for all 36 states and UTs.
