## About India Justice Report 2025

The India Justice Report (IJR) 2025 is India's first and only comprehensive quantitative index which uses government data to rank the capacity of 'pillars' of the formal justice system. First published in 2019, it continues to track improvements and persisting deficits in each state's structural and financial capacity to deliver justice based on quantitative measurements of budgets, human resources, infrastructure, workload, and diversity across police, judiciary, prisons and legal aid, and Human Rights Commissions for all 36 states and UTs. The IJR is a collaborative effort undertaken in partnership with DAKSH, Commonwealth Human Rights Initiative, Common Cause, Centre for Social Justice, Vidhi Centre for Legal Policy and TISS-Prayas.
